## **Publishable summary**

This document describes the communication and outreach activities for the DOMUS project. The goal of the DOMUS project is to change radically the way in which vehicle passenger compartments and their respective comfort control systems are designed so as to optimize energy use and efficiency while keeping user comfort and safety needs central. This document describes the target audience, how that audience will be reached and when it will be reached. It also describes the procedure for dissemination as agreed in the DOMUS Consortium Agreement.
